

Greg Lamb (2/72)

Geoff Daly (4/69) read The Scheyvillian 2 of 2013 "on-line" shortly after it was released. During his travels in recent years Geoff had caught up with Greg Lamb (2/72) on a number of occasions around Australia, including Port Lincoln and Streaky Bay. Geoff read that Greg had not been well and called the number in The Scheyvillian to see how Greg was going. Unfortunately, Greg's wife had to tell Geoff that Greg had passed away seven months earlier from the effects of Motor Neurone Disease. As Greg had not been an active member of the association no-one knew of his passing.

2799699, Gregory John Lamb was born in Sydney in December 1948 and completed his secondary schooling at Normanhurst Boys High School. Before entering the Army as a National Serviceman, Greg was employed as a Production Controller with Spurway Industries. On Graduation, Greg was posted to the Royal Australian Engineers and posted to 1 RTB, Kapooka, where he finished his National Service.
